

EDUBRIDGE

Abstract:

EduBridge is a service platform used to bridge the gap between final-year students and supervisors. It will play an essential role in finding and connecting students with their particular supervisors. With the help of an EduBridge platform, the supervisor will get to know more about students' backgrounds and students can also choose their particular supervisor according to their domain. The main feature of our platform is our recommendation system, suggesting a good match of a particular group with a supervisor. Using our platform students can get many features like managing their detailed profile, pitching their ideas, getting funding alerts and choosing the right supervisor by visiting their detailed profile which will include the whole portfolio of the supervisor and their group capacity students can also get reviews by their past faculty members in order to get selected. Supervisors will also have a lot of flexibility, they get to review students' ideas on the one go, set an appointment time to meet physically or can communicate with students virtually.

Workflow:

Supervisors & Group Members:

S. No:	Name	Designation
1.	Dr Huma Jamshed	Supervisor
2.	Ms Sidrah Abdullah	Co-Supervisor
3.	Aroon Kumar	Team Lead & Member 1
4.	Hinesh Kumar	Member 2
5.	Laksh	Member 3
